Two new showrooms open with one thing in common; a reputation for quality and innovation

PIRNAR DOORS RECENTLY OPENED their new US flagship showroom in the Laguna Design Center offering integrated LED Lighting, keyless entry options with fingerprint scanners and some of the most sculptural and beautiful doors available today. The German engineering and influence of Italian style are the perfect marriage in the creation of these award winning highly artistic doors.

With elegantly hidden handles, hidden fingerprint reader, magic night illumination and beautiful handmade smooth surfaces, each door is a masterpiece for itself. “Rather than quality entrances, we want to manufacture masterpieces,” says the owner and CEO Roman Pirnar. “We want to push the boundaries of what is possible. An exterior door gives the first impression of the house and the owner, which is why we want it to be admirable, wonderful and an impeccably manufactured technological gem.”

The new Pirnar location is also proud to be an outreach location for Bang & Olufsen and Chris Justice art. [CH](#)
