SERVICES

In addition to plants and accessories, Inner Gardens offers a range of services including landscaping design, installation and maintenance.

PRODUCTS range from antiques hand-chosen by owner Stephen Block from around the world to Inner Gardens' eponymous own label.

INNER GARDENS

Nagel Nursery Gets an Upgrade

For 40 years, Inner Gardens Malibu on Busch Drive was known as Nagel Nursery, a destination for Los Angeles-area plant lovers. Since buying the property in early 2017, Inner Gardens has expanded the nursery to offer full-service design, installation and interior plant maintenance. This tropical paradise also offers one of the largest collections of garden planters, furnishings, and accessories in the United States, including antique, vintage, and the Inner Gardens Collection of reproductions. The 1.3-acre nursery

offers 20,000 square feet of greenhouses, including an enormous 25-foot tall greenhouse, one of the tallest in southern California. The size of their greenhouse allows Inner Gardens to offer the tallest interior specimen trees available in Southern California,

Inner Gardens Malibu specializes in tropical plants from Hawaii and Florida, while expanding the range of plant offerings to include Mediterranean plants such as olives, lavender, and rosemary. They carry only the most high-quality plants, which are hand-selected and grown by owner Stephen Block.
